## *TODAY, ONE IN FOUR DYING AMERICANS IS A VETERAN.*

### **About WHV**

We Honor Veterans, a program of the National Hospice and Palliative Care Organization and the VA, is designed to empower hospice professionals to meet the unique needs of dying veterans. The program teaches respectful inquiry, compassionate listening and grateful acknowledgement – to comfort patients with a history of military service and possibly physical or psychological trauma.

For more information on this program or Hospice achievement levels and requirements, go to:

### **America's Veterans**

These men and women often carry experiences from their military service that present unique challenges at the end of life. Transitions LifeCare has stepped up to build our skills and accept the mission to serve our nation's heroes.

### **Beyond the status quo...**

Transitions LifeCare's focus is on a single purpose: to provide comfort and support at the end of life. This is why we are on a mission to properly serve Veterans through the challenges they may be facing from illness, isolation or traumatic life experience.

While our mission is straightforward, it is anything but simple, as each patient has a unique life story and set of needs. By knowing how to recognize these unique needs and continued staff training in Veteran specific care skills, we are prepared to accompany and guide America's Veterans and their families through their life experiences toward a peaceful and dignified Home Coming.

We are committed to acquiring the necessary skills and fulfilling our mission to serve these men and women with the Faith, Dignity, Comfort and Purpose they each deserve.

**Thank you Veterans, for your selfless service...Now it is time for us to serve you.**
